## SOLID WASTE FACILITY PERMIT NO.

13-AA-001

## FACILITY NAME

Worthington Cut and Fill Site

## OPERATOR

County of Imperial - Department of Public Works

## FACILITY LOCATION

Worthing Road and New River

## PROPOSED

## SWMB APPROVAL

ENFORCEMENT AGENCY  
APPROVAL

## FINDINGS

1. This facility is an existing prior to August 15, 1977, 78 acres Class II sanitary landfill; site life is expected to be 50+ years. The area landfill method of operation is utilized. The facility is located at the south side of Worthington Road East of New River in the County of Imperial 10 miles west of the City of Imperial on land owned by the Imperial Irrigation District. The disposal site receives approximately 25 tons per day. The site is open 24 hours a day 7 days a week with a site operator present from 7:30 to 3:30 Monday through Thursday. Permitted salvaging occurs at the present time. At some future date the site may operate fewer days per week.

Types of waste received at the site include:

- a. Residential/commercial waste.
- b. Tires.
- c. Construction/demolition wastes.
- d. Septic tank pumpings and chemical toilet waste. Per special instructions of Regional Water Quality Control Board.
- e. Empty pesticide containers which upon certification of the County Agricultural Commissioner, have been triple rinsed and punctured prior to being transported to the site where they are placed in a separate fenced trench.
- f. Limited Geothermal drilling muds which are accepted upon approval of Regional Water Quality Control Board and are spread over existing cells.

2. The following documents condition the design and operation of this facility:

- A. Waste discharge requirements No. 70-37 issued by the California Regional Water Quality Control Board, Colorado River Basin Region.

This permit is granted solely to the operator named above, and is not transferable. Upon a change of operator, this permit is subject to revocation. Upon a significant change in design or operation from that described in this permit or in attachments thereto for the existing design and operation of a facility operating immediately prior to August 15, 1977, or from the approved intended design and operation of a facility which was not operating prior to August 15, 1977, or which herein is granted a permit modification, this permit is subject to revocation, suspension, modification or other appropriate action.

This permit does not authorize the operation of any facility contrary to the State Minimum Standards for Solid Waste Handling and Disposal. This permit cannot be considered as permission to violate existing laws, ordinances, regulations, or statutes of other government agencies.

## TITLE

## DATE

Health Officer and Director

B. Lease agreement between Imperial Irrigation District and County of Imperial Department of Public Works.

3. Land within 1000 feet of this site is zoned A-2 General Agriculture.
4. This facility's design and operation are currently in substantial compliance with State Minimum Standards and with conditional waiver # \_\_\_\_\_ as determined by a physical inspection made on April 4, 1979, except that they violate Sections 17646, 17666, 17682, 17707, 17726.
5. This permit is consistent with State Minimum Standards for Solid Waste Handling and Disposal and with the Imperial County Solid Management Plan.
6. Operations immediately prior to August 15, 1977 were conducted as specified by the report of disposal site information dated August 15, 1977 and amended March 31, 1978 and as amended \_\_\_\_\_ which is on file with the Imperial County Health Department Environmental Quality Control.

#### Conditions

##### A. Requirements

1. This facility must comply with all of the State Minimum Standards for Solid Waste Handling and Disposal.
2. This facility must comply with all Federal, State, and local requirements and enactments.
3. The enforcement agency reserves the right to require additional information concerning the design and operation of this facility.

##### B. Prohibitions

The following actions are prohibited at the facility:

1. Disposal of hazardous waste.
2. Scavenging
3. Open burning

##### C. Specifications:

No significant change in design of operation from that described in items 1 and 6 of the "Findings" section is allowed, except for those changes which are required under the "Conditions" portion of this permit.

## D. Provisions:

The following items must be corrected by the dates indicated.

1. The operator must provide sanitary facilities for employees by August 1, 1979. (17666)
2. Equipment shall be adequate in type, capacity and numbers to comply with item # \_\_\_\_\_, of conditional waiver# \_\_\_\_\_. (17726)
3. All residential and commercial wastes containing putrescibles shall be covered as required by item# \_\_\_\_\_ of conditional waiver # \_\_\_\_\_ on those days when packer trucks are utilizing the site to control vector, litter, and odors. (17682,17707).
4. The operator of the site must provide adequate numbers of qualified personnel to staff the site and deal effectively and promptly with matters of operation, maintenance, environmental controls, records, emergencies, and health and safety. (17646) As required by Item # \_\_\_\_\_ of conditional waiver# \_\_\_\_\_.
5. This permit is subject to review by the enforcement agency, and may be suspended, revoked, or modified at any time for sufficient cause.

## E. Self-Monitoring Program

The following items shall be monitored by the operators of this facility or his agent and records shall be kept and made available to the enforcement agency upon request.

1. Quantity and types of wastes received at the site per week day and quarter.
2. Area of site utilized twice a year.
3. Quantity and types of wastes salvaged per quarter as applicable.
4. Number of vehicles utilizing the site per week and per quarter.
